

**Executed ARRA Projects
Sorted by Regional Board**
(as of 10/20/09)

RR #	Recipient	Project Title	Project Description	Total CWSRF Project \$	\$ Grants			\$ Loans				County	Est'd Jobs
					Disadvantaged Communities Wastewater	Urban Stormwater	Stopped "Bond" Grants	Loan @ 1% (ARRA)	Loan @ 1% (reg. SRF)	Loan @ 0% (ARRA)	Base Loan @ 1/2 GO Bond Rate		
1	Del Norte County Service Area No. 1	Sewer Collection System Rehabilitation Project	The Project will replace or repair section of the sewage collection system that need rehabilitation in a small, disadvantaged community.	\$695,255	\$695,255							Del Norte	30
1	Humboldt County Resource Conservation District	Humboldt Agricultural Enhancement Program Phase 4	The Project will reduce animal waste and related pollution in two critical North Coast estuaries, the Humboldt Bay, and the Eel River Estuary.	\$180,000			\$180,000					Humboldt	15
1	Cher-Ae Heights Indian Community of Trinidad Rancheria	Trinidad Harbor and Beach	The Project will construct a wastewater treatment plant to replace septic tanks that are affecting beach and harbor water quality. The wastewater will be treated to meet recycled water standards to ensure protection of groundwater quality.	\$1,662,708			\$1,662,708					Humboldt	10
1	Garberville Sanitary District	Wastewater Treatment Plant Improvement and Inflow and Infiltration Reduction Project	The Project will upgrade the wastewater treatment plant and replace a portion of the wastewater collection system to bring the District into compliance with permit requirements.	\$2,951,173	\$2,951,173							Humboldt	29
1	City of Rio Dell	Solids and Disinfection Management Project	The Project will improve solids handling and wastewater disinfection at the City's wastewater treatment plant.	\$2,254,714	\$2,254,714							Humboldt	4.5
1	Tomasles Bay Watershed Council	Tomasles Bay Wetlands Restoration/ Monitoring Plan	The Project integrates the restoration of the Giacomini Wetland and water quality monitoring to reduce and eliminate existing pollutants and identify emerging pollutants.	\$799,629			\$799,629					Marin	11-15
1	Mendocino County Department of Transportation	Tonkin Road Feasibility Study and Prototype Vented Low Water Crossing	The Project will install a bottomless culvert and restore the natural creek bottom to reduce sediment in Cave Creek in Mendocino County.	\$149,450			\$149,450					Mendocino	6-10
1	Covelo Community Services District	Wastewater Treatment Plant Improvement Project Phases 1&2	The Project consists of wastewater treatment facility upgrades to achieve compliance with Waste Discharge Requirements Order No. R1-2006-0007.	\$1,323,264	\$1,323,264							Mendocino	28
1	California Land Stewardship Institute	Fish Friendly Farming Program Agricultural Clean Water Implementation	The Project will reduce pollution from agricultural sources.	\$362,542			\$362,542					Multiple	10
1	Pacific Coast Fish, Wildlife, and Wetlands Restoration Association	Redwood Creek Erosion Control	The Project will reduce erosion from logging roads in the Redwood Creek watershed.	\$1,417,318			\$1,417,318					Multiple	10
			Totals:	\$11,796,053	\$7,224,406		\$4,571,647						
2	City of Oakland	Removal of Stormwater Pollutants at Lake Merritt and the Oakland Estuary	The project will improve water quality and marine habitat in San Francisco Bay by keeping trash and other pollutants out of local creeks and streams.	\$3,450,000		\$3,450,000						Alameda	74
2	California Sportfishing Protection Alliance	Suisun Creek Watershed Program	The Project will implement actions identified by the Suisun Creek Restoration Team, restoration of riparian corridors, invasive plant removal, expansion of the Fish Friendly Farming program to implement best management practices on agricultural lands in the watershed.	\$89,963			\$89,963					Alameda	15
2	City of Oakland	Rainwater Harvesting Program	The project will reduce the effects of stormwater runoff on City creeks, Lake Merritt, and the San Francisco Bay and help conserve water by storing rainwater for landscape irrigation.	\$1,300,000		\$1,300,000						Alameda	74
2	City of Piedmont	Sewer Rehabilitation Project	The Project will rehabilitate 29,032 feet of sewer mains and laterals.	\$4,171,500				\$568,177	\$3,603,323			Alameda	10
2	City of Alameda	Installation of Mechanical Trash Racks at three Storm Water Pump Stations	The project will install automatic mechanical trash racks at three existing municipal storm water-pumping stations in the City.	\$750,000		\$750,000						Alameda	9
2	Association of Bay Area Governments	Taking Action for Clean Water Bay Area TMDL Implementation	The Project will reduce pollution and improve water quality in San Francisco Bay.	\$1,801,010			\$1,801,010					Alameda	16-20
2	Delta Diablo Sanitation District	Antioch Recycled Water Project	The Project will provide additional recycled water to customers for landscape irrigation in the District's service area to offset the use of potable water.	\$6,405,136					\$495,090	\$5,910,046		Contra Costa	60
2	Association of Bay Area Governments	El Cerrito Green Streets	The project will build two curbside rain gardens that will treat runoff from 1.23 acres of impervious surface, with an estimated treatment volume-area of 20,7000 cubic feet.	\$392,000		\$392,000						Contra Costa	20
2	Conservation Corps North Bay	Olema Creek Sediment Reduction Project	The Project will make a series of improvements to reduce sediment in Olema Creek.	\$394,468			\$394,468					Marin	21-30
2	Marin Resource Conservation District	Conserving Our Watersheds Ranch Water Quality Improvement Project	The Project will make a series of improvements to reduce agricultural pollutants in the Tomasles Bay, Walker, and Stemple Creek watersheds.	\$564,577			\$564,577					Multiple	21-30
2	Association of Bay Area Governments	Bay Area-Wide Trash Capture Demonstration Project	This project will install trash capture devices in municipal storm drain systems throughout the Bay Area to prevent trash and debris from polluting the Bay.	\$5,000,000		\$5,000,000						Multiple	75
2	County of Napa	Napa River - Rutherford Reach Restoration	The Project will restore the channels/floodplains to reduce sedimentation in the Napa River.	\$977,307			\$977,307					Napa	10
2	Port of San Francisco (Pier 45)	Pier 45 Drainage Improvement/Herring Water Discharge	The Project will allow herring boats at Pier 45 to discharge fish waste to the sanitary sewer system and direct storm water runoff from the Pier to the sanitary sewer system. The existing sanitary sewer pump station will be upgraded handle the additional flows. The improvements will enhance water quality year round at nearby Aquatic Park.	\$1,548,645			\$1,548,645					San Francisco	15
2	City of Millbrae	Water Pollution Control Plant Renovations Project	The Project will renovate the City's aging wastewater treatment plant to provide a modern, cost effective facility that can reliably meet discharge requirements and protect public health and water quality in San Francisco Bay.	\$34,000,000				\$8,500,000	\$25,500,000			San Mateo	70
2	San Mateo County Resource Conservation District	Improving Water Quality in Coastal San Mateo County Watersheds	The Project will integrate federal, state, and local conservation practices to control pollutants in coastal watersheds.	\$221,984			\$221,984					San Mateo	10
2	Town of Hillsborough	Mobile Filtration System	Hillsborough will purchase a U.S. manufactured, mobile filtration system to reduce the risk of storm drain and creek overflows and conserves water supply.	\$300,000		\$300,000						San Mateo	10
2	Gold Ridge Resource Conservation District	Estero Americano Sediment Reduction Project	The Project will restore waterways in the Estero Americano watershed in Sonoma County to reduce sediment in the creeks.	\$219,491			\$219,491					Sonoma	16-20
2	Gold Ridge Resource Conservation District	Estero Americano Rangeland Water Quality Enhancement Project	The Project will reduce agricultural pollutants in the watershed.	\$667,450			\$667,450					Sonoma	16-20
			Totals:	\$62,253,531		\$11,192,000	\$6,484,895	\$9,068,177	\$29,598,413	\$5,910,046			

**Executed ARRA Projects
Sorted by Regional Board**
(as of 10/20/09)

RB #	Recipient	Project Title	Project Description	Total CWSRF Project \$	\$ Grants			\$ Loans			Base Loan @ 1/2 GO Bond Rate	County	Est'd Jobs
					Disadvantaged Communities Wastewater	Urban Stormwater	Stopped "Bond" Grants	Loan @ 1% (ARRA)	Loan @ 1% (reg. SRF)	Loan @ 0% (ARRA)			
3	The Foundation of Morro Bay	Implementation Effectiveness Assessment for the Morro Bay Watershed	The Project will reduce pollutants that flow into the Morro Bay National Estuary.	\$278,296			\$278,296					San Luis Obispo	5
3	Central Coast Vineyard Team	Implementation of BMP's To Protect Water Quality	The Project will reduce erosion and integrate pest management practices to protect water quality.	\$138,302			\$138,302					San Luis Obispo	5
3	Central Coast Agricultural Water Quality Coalition	Demonstrating Compatibility of Water Quality and Food Safety through Research and Implementation	The Project will reduce agricultural pollution in the Salinas and Pajaro River Watersheds. The Project will assess the effectiveness and the risks to food safety associated with these practices.	\$430,269			\$430,269					San Luis Obispo	5
3	City of Santa Barbara	Catch Basin Inlet Storm Drain Screens	The Project will improve the City's creeks and beaches by preventing trash, green waste, debris, and discarded household items from entering the storm drain system.	\$1,789,388		\$1,789,388						Santa Barbara	41
3	City of Santa Barbara	Upper Las Postas Creek Restoration & Storm Water Management Project	The Project will protect the Creek by keeping oil, grease, and bacteria out of the storm drain.	\$1,652,197		\$1,652,197						Santa Barbara	30
3	Santa Cruz County Sanitation District (Aptos Esplanade)	Aptos Esplanade	The Project will replacing the sewer lines and manholes around the Aptos Esplanade waterfront to prevent sewage overflows.	\$485,136			\$485,136					Santa Cruz	15
3	Santa Cruz County Sanitation District (Aptos Beach)	Aptos Beach at Valencia Creek	The Project will provide public sewer service to an area currently on failing septic systems adjacent to Valencia Creek, a tributary to Aptos Creek.	\$168,750			\$168,750					Santa Cruz	15
3	City of Santa Cruz	Dry Weather Diversion at San Lorenzo River Pump Stations 1b and 3	The Project divert urban runoff to protect beach water quality.	\$489,308			\$489,308					Santa Cruz	10
3	Resource Conservation District of Santa Cruz	Integrated Watershed Restoration Program Phase II	The Project will help restore the watershed to improve water quality and salmonid habitat, coordinate County permitting programs, and evaluate the effectiveness of these efforts.	\$1,378,774			\$1,378,774					Santa Cruz	51-100
3	County of Santa Cruz	Reducing Nonpoint Source (NPS) Sediment and Pesticide Pollution in County Road Maintenance Operations	The Project will reduce pollutants associated with County road maintenance to impaired waters in Santa Cruz County.	\$287,532			\$287,532					Santa Cruz	15
3	Resource Conservation District of Santa Cruz	Permit Coordination & Agricultural Water Quality Implementation Program in the Pajaro Watershed	The Project will demonstrate measures to reduce pollution of state waters from agricultural sources. The Project will promote voluntary efforts by other farmers to reduce agricultural runoff.	\$174,479			\$174,479					Santa Cruz	15
			Totals:	\$7,272,431		\$3,441,585	\$3,830,846						
4	City of Redondo Beach	Sapphire Storm Drain Low Flow Diversion	The Project will divert urban runoff from the Sapphire Storm Drain to protect beach water quality in the City of Redondo Beach.	\$202,000			\$202,000					Los Angeles	5
4	City of Long Beach	Colorado Lagoon Beaches Restoration	The Project will restore Colorado Lagoon by diverting urban runoff and trash, building a vegetated swale to capture pollutants, and cleaning and modifying an existing culvert to improve natural tidal flushing.	\$3,202,977			\$3,202,977					Los Angeles	10-15
4	City of Hermosa Beach	Hermosa Strand Infiltration Trench	The Project will divert storm water year-round from Hermosa Beach to protect beach water quality.	\$950,850			\$950,850					Los Angeles	10
4	City of Los Angeles (Santa Monica Bay)	Santa Monica Bay Low Flow Diversions Upgrades	The Project will upgrade the urban runoff diversions at six locations in the City of Los Angeles to help protect Santa Monica Bay beaches from urban pollutants.	\$4,340,420			\$4,340,420					Los Angeles	31-40
4	City of Long Beach	Los Angeles River VSS Unit	The Project will remove trash, debris, and sediment from urban runoff before they reach the Los Angeles River.	\$539,634			\$539,634					Los Angeles	10
4	City of Long Beach (Los Angeles River Trash Nets)	Los Angeles River Trash Nets	The Project will capture trash and debris before they reach the Los Angeles River.	\$403,200			\$403,200					Los Angeles	10
4	City of Long Beach (Los Angeles River Trash SD)	Los Angeles River Trash Separation Device - SD13	The Project will remove trash and debris from urban runoff before they reach the Los Angeles River.	\$551,845			\$551,845					Los Angeles	10
4	City of Los Angeles Department of Public Works	Mar Vista Recreation Center Retrofit	The Project will collect and treat all dry weather, and a portion of the wet weather, urban runoff from the Sawtelle Channel. Treated runoff will be re-used at the adjacent Mar Vista Recreation park or returned to the Sawtelle Channel.	\$1,766,568			\$1,766,568					Los Angeles	10
4	City of Malibu	Paradise Cove Storm Water Treatment System	The Project consists of demolition of a concrete pad and installation of a new stormwater runoff treatment system to replace the previous, temporary, pilot water runoff treatment facility.	\$816,276			\$816,276					Los Angeles	21
4	Gateway IRWM Authority	Gateway IRWM Authority Storm Drain Catch Basin Retrofit Project	The Project is a regional project that will keep trash and other debris out of the Los Angeles River and create hundreds of construction jobs in economically disadvantaged cities.	\$10,000,000		\$10,000,000						Los Angeles	100
4	City of Redondo Beach	Alta Vista Park Diversion and Reuse Project	The project will divert, treat and reuse runoff from a 101ac. watershed that discharges into Santa Monica Bay just south of the Redondo Beach Pier.	\$2,200,000		\$2,200,000						Los Angeles	15
4	City of Hermosa Beach	Pier Avenue Improvement	This project will capture and treat stormwater and urban runoff in the downtown commercial corridor along Pier Avenue.	\$1,265,000		\$1,265,000						Los Angeles	96
4	Santa Monica Bay Restoration Foundation	Ballona Creek Low Impact Development (LID) Rain Gardens Project	The Project will install four LID rain infiltration gardens in the Los Angeles County flood control right-of-way along Ballona Creek. The rain gardens will capture, treat, and infiltrate stormwater runoff.	\$1,889,662		\$1,889,662						Los Angeles	28
4	Ventura County Waterworks District No. 16	Piru Wastewater Treatment Plant Design-Build Upgrade and Expansion Project	The Project will increase the District's wastewater treatment capacity to accommodate future needs, and will upgrade the plant to provide enhanced treatment to protect water quality.	\$14,109,542	\$8,554,771				\$5,554,771			Ventura	31
4	Friends of the Santa Clara River	Hendrick Ranch Nature Area Wetland & Riparian Restoration	The Project will restore natural riparian and wetland habitats to reduce pollutant runoff to the Santa Clara River.	\$165,018			\$165,018					Ventura	20
4	City of Thousand Oaks	Stormwater Drainage Improvement	The Project will reduce sediment in local streams by reducing surface flooding.	\$907,500		\$907,500						Ventura	20
4	Ventura County Service Area 34	El Rio Sewer Project, Phase 5B-5D	The Project will continue the County's efforts to move the residents of El Rio, a disadvantaged community, from septic systems to a public sewer system. Wastewater will be transported to the City of Oxnard for treatment and disposal.	\$18,700,000	\$10,000,000				\$8,700,000			Ventura	26
			Totals:	\$62,010,492	\$18,554,771	\$16,262,162	\$12,938,788		\$8,700,000				

**Executed ARRA Projects
Sorted by Regional Board**
(as of 10/20/09)

RB #	Recipient	Project Title	Project Description	Total CWSRF Project \$	\$ Grants			\$ Loans				County	Est'd Jobs
					Disadvantaged Communities Wastewater	Urban Stormwater	Stopped "Bond" Grants	Loan @ 1% (ARRA)	Loan @ 1% (reg. SRF)	Loan @ 0% (ARRA)	Base Loan @ 1/2 GO Bond Rate		
5	Plymouth, City of	Plymouth Wastewater Treatment Plant Improvements-Phase 1, and Collection System Rehabilitation Project	The Project will upgrade the City's wastewater treatment plant and repair the sewer collection system in a small, disadvantaged community.	\$2,250,000	\$2,250,000							Amador	11
5	Amador Water Agency	Gayla Manor Leachfield Expansion Project	The Project will address insufficient wastewater disposal capacity in a small, disadvantaged community.	\$367,612	\$367,612							Amador	5
5	City of Chico	Big Chico Creek and Lindo Channel Floodplain, Wetland and Riparian Restoration	The Project will reduce urban runoff in Big Chico Creek by restoring the natural floodplain, riparian habitat, wetlands, and native grasslands at an 18 acre site on Lindo Channel.	\$561,109			\$561,109					Butte	8
5	City of Chico	City of Chico Water Pollution Control Plant Outfall Replacement Project, also known as Chico Water Pollution Control Plant Expansion (Phase 2)	The Project will construct a new outfall pipeline/diffuser to replace the existing pipeline system and expand its capacity.	\$5,422,120	\$2,000,000				\$3,422,120			Butte	8
5	San Andreas Sanitary District	2008 Wastewater Treatment Plant Upgrade Project	The Project will upgrade the existing wastewater treatment plant so that it can treat wastewater to a higher standard and provide enhanced water quality protection.	\$10,575,496	\$5,840,314				\$4,735,182			Calaveras	30
5	Angels, City of	Wastewater Improvement Project Phase III	The Project includes upgrades to help the wastewater treatment facility meet current permit requirements and make the facility more reliable.	\$3,372,800	\$3,086,400				\$286,400			Calaveras	20
5	Community Alliance w/Family Farmers Foundation	BMPs for Reducing Sediment and Pesticides in runoff from Colusa County Almond Orchards	The Project will reduce agricultural pollutants from almond growers and measure the effectiveness of these measures.	\$519,780			\$519,780					Colusa	15-20
5	City of Kerman	Wastewater Treatment Plant Expansion and Upgrade	The Project will increase treatment capacity and efficiency at the City's wastewater treatment plant.	\$6,957,479	\$2,000,000				\$4,957,479			Fresno	25
5	Fresno, City of	Herndon Town and Cortland/Fountain Way Sewer System	The Project will construct sewer mains, branches, and connections to replace aged septic tanks in the town of Herndon and along Cortland and Fountain Way.	\$999,468	\$999,468							Fresno	20
5	City of Selma	Stormwater Projects	The Project will reduce stormwater pollution of local creeks. This project will create and retain construction jobs in an area suffering from an unemployment rate of more than 16 percent.	\$3,918,620		\$3,918,620						Fresno	20
5	City of Delano	Wastewater Plant Upgrade and Expansion	The Project will construct additional sewer lines to provide sufficient capacity for the City and increase the treatment and disposal capacity at its treatment plant to provide for the future. The treatment plant will also be upgraded to provide a higher level of treatment to protect groundwater quality.	\$33,418,792	\$2,000,000			\$7,854,698	\$23,564,094			Kern	40-60
5	Wasco, City of	2009 Wastewater Centrifuge Project	The Project will install a machine to help dry sludge at the wastewater treatment plant.	\$2,000,000	\$2,000,000							Kern	5
5	Kelseyville County Waterworks District	Kelseyville Wastewater System Upgrade	The Project will expand the capacity of the wastewater treatment plant to meet the District's permit limits and address Cease and Desist Order No. R5-2005-0007.	\$3,775,108	\$1,775,108				\$2,000,000			Lake	23-39
5	City of Merced	Wastewater Plant Upgrade and Expansion	The Project will provide additional wastewater treatment capacity and replace outdated facilities to ensure adequate treatment to protect water quality.	\$34,980,632	\$2,000,000				\$32,980,632			Merced	30-40
5	City of Colfax	Colfax Sewer Lift Station and Inflow and Infiltration Elimination Project	The Project consists of lift station upgrades/elimination, and replacement, lining, and repair of sewer lines and manholes in the City's sewer collection system to eliminate identified areas of inflow and infiltration (I&I). The Project is necessary to comply with Waste Discharge Requirements Order No. R5-2007-0130 and Cease and Desist Order No. R5-2007-0131.	\$3,627,000	\$3,627,000							Placer	20
5	Plumas Corp.	Upper Middle Fork Feather River Complex	The Project will restore the channels/floodplains on five tributaries to the Upper Middle Fork of the Feather River to reduce sediment in the Feather River.	\$158,577			\$158,577					Plumas	16-20
5	Western Shasta Resource Conservation District	Integrated Ecosystem Improvements for Shasta County Watersheds	The Project will implement watershed activities to reduce pollutant runoff in three major watersheds in Shasta County (Stillwater Creek, Churn Creek and Cow Creek).	\$102,985			\$102,985					Shasta	5
5	Redding, City of	Clear Creek Wastewater Treatment Plant Expansion & Upgrade Bid Package 6	The Project is part of the City's overall plan to modernize its Clear Creek wastewater treatment plant.	\$18,865,000	\$2,000,000						\$16,865,000	Shasta	30-40
5	City of Hughson	WWTP Upgrade and Expansion	The Project will upgrade and expand the City's wastewater treatment plant to address permit violations.	\$23,000,000					\$23,000,000			Stanislaus	150
5	City of Live Oak	Live Oak Wastewater Treatment Plant 2007 Upgrade Project	The Project will upgrade the existing wastewater treatment plant so that it can treat wastewater to a higher standard and provide enhanced water quality protection.	\$16,000,000	\$10,000,000				\$6,000,000			Sutter	45
5	London Community Services District	Wastewater Facility Improvement Project	The Project will rehabilitate an aging wastewater treatment plant in a small, disadvantaged community.	\$1,137,200	\$1,137,200							Tulare	21
5	Linda County Water District	Linda County Wastewater Treatment Plant Upgrade and Expansion Project	The Project will increase the capacity and level of treatment at the District's wastewater treatment plant.	\$54,304,000	\$10,000,000				\$44,304,000			Yuba	30
Totals:				\$226,313,776	\$51,063,102	\$3,918,620	\$1,342,451	\$7,854,698	\$145,249,907		\$16,865,000		
6	Tahoe RCD	Lake Tahoe Watershed Improvement Project	The Project will improve water quality by implementing erosion control practices, reducing hazardous fuels to alleviate the number of devastating fires, removing and controlling invasive weeds, and implementing water conservation practices in the Lake Tahoe Basin.	\$1,478,057			\$1,478,057					El Dorado	15
6	Sierra Nevada Alliance	Evaluating Land Use Practices...	The Project will reduce common pollution sources associated with land use in the Sierra Nevada. Watershed groups will identify problematic land use practices and participate in training, site evaluation, and development of ordinances designed to foster pollution prevention. Guidance material will be created to educate homeowners and policy-makers on ways to reduce pollution, and community forums will involve citizens in watershed and land use management.	\$196,561			\$196,561					El Dorado	10
6	City of South Lake Tahoe	Sierra Tract Erosion Control Project, Phase 1b	The Project will improve water quality in Lake Tahoe by reducing urban pollution to the Lake.	\$1,675,000		\$1,675,000						El Dorado	47
6	City of South Lake Tahoe	AI Tahoe Erosion Control Project 1	The Project will upgrade the existing storm drain system in the Project 1 area.	\$1,500,000		\$1,500,000						El Dorado	20
6	Tahoe RCD	Polaris Creek	The Project will reduce urban stormwater runoff, restore wetlands, and provide habitat for several special status species.	\$220,090			\$220,090					Placer	15

**Executed ARRA Projects
Sorted by Regional Board**
(as of 10/20/09)

RB #	Recipient	Project Title	Project Description	Total CWSRF Project \$	\$ Grants			\$ Loans				County	Est'd Jobs
					Disadvantaged Communities Wastewater	Urban Stormwater	Stopped "Bond" Grants	Loan @ 1% (ARRA)	Loan @ 1% (reg. SRF)	Loan @ 0% (ARRA)	Base Loan @ 1/2 GO Bond Rate		
6	Placer County	Kings Beach Watershed Improvement Project	The Project consist of installing improvements that will pipe runoff via County and State right-of-ways to Lake Tahoe without introducing the water to pollutants within the commercialized urban area.	\$3,000,000		\$3,000,000						Placer	5
6	Big Bear Lake, City of	Tahoe Sewer Main Replacement	The project will replace a segment of the existing sewer main to mitigate inflow and infiltration that occurs in the area.	\$1,285,700	\$1,285,700							San Bernardino	30
6	Big Bear Lake, City of	Rehabilitation of Lift Station 2 and 2A	The project will repair and improve the Lift Station 2 and 2A facilities to ensure more reliable operations and prevent sewer overflows.	\$708,945	\$708,945							San Bernardino	15
6	Truckee River Watershed Council	Perazzo Meadows Restoration	The Project will decrease sediment, increase riparian and meadow habitat, and improve native fishery.	\$373,153			\$373,153					Sierra	15
Totals:				\$10,437,506	\$1,994,645	\$6,175,000	\$2,267,861						
7	City of Brawley	Wastewater Treatment Plant Upgrade Project	The Project will upgrade the City's wastewater treatment plant so that it can treat wastewater to a higher standard to provide enhanced water quality protection.	\$25,400,000	\$10,000,000				\$15,400,000			Imperial	50
Totals:				\$25,400,000	\$10,000,000				\$15,400,000				
8	City of Anaheim	Public Utilities Pilot Infiltration Project	The Project consists of replacing an existing storm water collection sump and pump at the City of Anaheim Utility Services Center with a storm water pre-treatment system that discharges to an infiltration well.	\$230,000		\$230,000						Orange	2
8	Eastern Municipal Water District	Moreno Valley Regional Water Reclamation Facility - Secondary Clarifiers and Tertiary Treatment (SCATT)	The Project will increase wastewater treatment capacity to 30 million gallons per day at the Moreno Valley Regional Water Reclamation Facility to accommodate future population growth and increase the reliability of the facility.	\$38,362,890				\$9,590,723	\$28,772,167			Riverside	25
8	Beaumont Cherry Valley Water District	Recycled Water Facilities	The Project is the backbone of a non-potable water system around the District's service area. The Project will offset the use of potable water supplies for irrigation purposes.	\$16,108,100					\$745,600	\$15,362,500		Riverside	66
8	Western Riverside County Ag Coalition	Implementation of TMDL Agricultural Operator Voluntary Program with 2 BMPs implemented	The Project will reduce agricultural pollutants that affect water quality in Lake Elsinore and Canyon Lake.	\$115,153			\$115,153					Riverside	21-30
8	Western Municipal Water District (Chino)	Chino II Desalter Ultimate Expansion	The Project will treat and manage groundwater levels to remove pollutants from groundwater in the Chino Basin.	\$4,479,326			\$4,479,326					Riverside	16-20
8	Eastern Municipal Water District	Moreno Valley Regional Water Reclamation Facility - Acid Phase Anaerobic Digestion (APAD)	The Project will provide at least 15.8 million gallons per day (MGD) of reliable capacity to process liquids and solids at the treatment facility by 2012.	\$46,315,413						\$10,358,500	\$35,956,913	Riverside	30
8	Inland Empire Utilities Agency	Wells & Lysimeters Project	The Project will install three monitoring wells and two lysimeters to monitor the effects of recycled wastewater discharged to groundwater.	\$1,500,000				\$375,000	\$1,125,000			San Bernardino	10.5
8	Inland Empire Utilities Agency	Northeast Project Area Package 1 - 1299E Recycled Water Pipeline	The Project will install 13,000 linear feet of pipeline to increase delivery of recycled water in the Agency's service area.	\$3,493,463					\$318,621	\$3,174,842		San Bernardino	76
8	Inland Empire Utilities Agency	Northeast Package Area 1 -- 1630E Pump Station & 1299E Reservoir Projects	The Project will purchase and modify an existing water storage reservoir to allow the Agency to increase recycled water distribution within its service area.	\$5,789,720					\$616,400	\$5,173,320		San Bernardino	74
8	Inland Empire Utilities Agency	Northeast Package Area 1 -- 1630E Recycled Water Pipeline Project	The Project will install 13,000 linear feet of pipeline to convey recycled water to the San Sevaine groundwater recharge site. Groundwater recharge helps ensure a reliable future supply of water in the Agency's service area.	\$5,658,239					\$1,166,862	\$4,491,377		San Bernardino	71
8	Inland Empire Utilities Agency	Northeast Package Area 1 -- Church Street Lateral Project	The Project will install 4,200 linear feet of pipeline to increase delivery of recycled water in the Agency's service area.	\$1,078,476					\$50,462	\$1,028,014		San Bernardino	11
8	Inland Empire Utilities Agency (Magnolia Channel)	Magnolia Channel	The Project reduce stormwater runoff by re-establishing a natural urban stream, using retention ponds to reduce flow and encourage infiltration, and build managed wetlands/riparian habitat.	\$773,045			\$773,045					San Bernardino	21-30
8	Inland Empire Utilities Agency	RP-1 Dewatering Facility Expansion Project	The Project will help the Agency process solids produced during the wastewater treatment process to reduce the weight of material hauled to the composting facility. Reducing the weight reduces hauling costs and associated air emissions.	\$27,579,000					\$17,220,500	\$10,358,500		San Bernardino	193
8	Inland Empire Utilities Agency (Greater Prado Basin)	Greater Prado Basin Clean-Up & Restoration	The Project will reduce pollution from illegal dumping, off-road motorized recreation, and other inappropriate activities in the Santa Ana River watershed.	\$298,244			\$298,244					San Bernardino	21-30
8	Inland Empire Utilities Agency (Chino Creek)	Chino Creek Cleanup and Restoration	The Project will help improve water quality in the Chino Creek Watershed restoring the natural riparian system.	\$1,471,491			\$1,471,491					San Bernardino	21-30
Totals:				\$153,252,360		\$230,000	\$7,137,259	\$9,965,723	\$50,015,612	\$49,947,053	\$35,956,913		
9	City of Mission Viejo	Oso Creek Restoration & Protection Project	This Project will improve the quality of water in Oso Creek by treating stormwater, restoring the natural channel, and removing invasive plants.	\$1,045,000		\$1,045,000						Orange	5
9	Mission Resource Conservation District	Arundo Control-San Luis Rey Watershed	The Project will restore approximately 2.2 miles of River in the San Luis Rey Watershed.	\$294,746			\$294,746					San Diego	16-20
9	Regents of the U. of California	La Jolla Shores ASBS	The Project will eliminate dry weather urban runoff to protect areas of special biological significance adjacent to La Jolla Shores.	\$2,644,400			\$2,644,400					San Diego	21-30
9	Los Penasquitos Lagoon Foundation	Los Penasquitos Sedimentation Basin	The Project will construct a sedimentation basin and revegetate the project site to reduce sediment to Los Penasquitos Creek.	\$972,166			\$972,166					San Diego	31-40
9	City of La Mesa	City of La Mesa Sewer System Improvement Project Phase IV	The Project will replace leaking sewer pipes with new pipe to minimize excess water flowing to the City of San Diego's Point Loma wastewater treatment plant during wet weather. This will help reduce peak flows at the Point Loma plant.	\$3,376,922					\$3,376,922			San Diego	24
Totals:				\$8,333,234		\$1,045,000	\$3,911,312		\$3,376,922
